

City Map

Neighbourhoods of Madrid, coloured by population density.

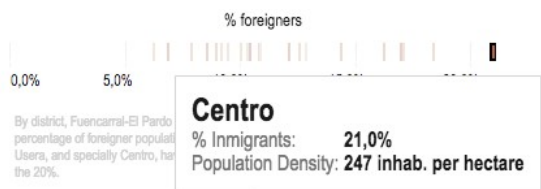

Population in Recoletos is 15,578 people. I checked the Recoletos neighborhood on the map of Madrid. Then I looked at population information, which was by the right from the map. I hovered my mouse over the bright section of population information and got information about the population at the selected neighborhood.

More than 54% of Salamanca population voted to PP in 2015. I had changed the value of the checkbox down below the Madrid's map to "District". After that, I looked at the East Districts Population Pyramids and clicked on Salamanca district. Then I found out information about votes to the parties. I hovered the mouse on the brightest point and got the information about votes in Salamanca district.

The most of foreigners in Madrid live in Centro district. I looked at information about per cent of foreigners by districts and clicked on the rightmost because this corresponded the highest value of per cent of foreigners by districts. Per cent was 21%.
